Adam Consolidated Industries, Inc.—Hat Store Division to Be Operated by Management Firm-

sion to Be Operated by Management Firm—

This corporation has contracted with a management company to operate their Adam Hat Store division and undertake the entire financial, inventory and operational responsibility for the Adam Hat Store division on a perpetual basis, Harold Leitman, President, announced on Aug. 28.

"Under the arrangements." Mr. Leitman said, "Adam is guaranteed a profit in pepetuity by the newly formed Adam Management Corporation, It will enable Adam Consolidated to concentrate further on its diversification program which it has undertaken during the last two years. The arrangement will provide Adam with a source of continuing and perpetual guaranteed income while at the same time increasing its working capital and cash position, since it will no longer have to maintain large inventory positions in hat merchandise.

This is the third major development by Adam Consolidated Industries since Mr. Leitman assumed control in 1955, to re-vitalize the old Adam Hat Company and to improve its entire sales and merchandising structure. Other moves were the sale of the wholesale division and franchising of all Adam Hat stores.

"This move," Mr. Leitman explained, "will permit us to intensify our activities in our Inso division, which manufactures "Fused-Film' wire, our exclusive process for insulating wire with teffon to give it insulation properties never before possible. Based on tests and surveys, we anticipate Fused-Film wire will become an increasingly important part of the Adam Consolidated operations."

Mr. Leitman also pointed out that the company's Gemex subsidiary, a leading manufacturer of watch bands, has been constantly expanding and, under its new marketing plans, will make continued demands on the company's executives and resources. Removal of the hat store division will also permit greater concentration in this division.

The new management company will be headed by Joseph Kanner, who has been in the between the towards and resources.

The new management company will be headed by Joseph Kanner, who has been in the hat business for 35 years and also owns and operates the Joseph Kanner Hat Co., Inc., of South Norwalk, Conn., a hat manufacturer.—V. 185, p. 2321.

Affiliated Fund, Inc.—Asset Value Up 5%-

This company reports an increase of 29 cents, or about 5%, in the per share value of its capital stock for the first three quarters of its current fiscal year.

Net assets on July 31, 1957 were \$374,272,904, equivalent to \$5.98 a share. This per-share value, together with the 26-cent capital gain distribution paid in December 1956, is equivalent to \$6.24, as compared with \$5.95 on Oct. 31, 1956, end of the last fiscal year.—

nounced on Aug. 27 as the first major step in recently announced plans for a \$330,000,000 transmission project to augment California's gas supplies with Canadian gas, beginning in 1960.

Six Americans and seven Canadians were named to the board of directors of Alberta & Southern Gas Co. In addition to Mr. Horton they are: James B. Black, Chairman of the Board of PG&E who was named Chairman of the Board of the new company; S. M. Blair, of Toronto, President of Canadian Bechtel who was named Vice-Chairman; N. R. Sutherland, President and General Manager of PG&E, R. H. Gerdes, J. S. Moulton and P. E. Beckman, all PG&E Vice-Presidents; Ross MacKimmie, J. E. A. MacLeod, C. O. Nickle and R. L. Winton, all of Calgary, and H. R. Milner and D. K. Yorath, both of Edmonton.

The new company has established offices in the Natural Gas

The new company has established offices in the Natural Gas Building in Calgary, Alberta.

Alberta and Southern representatives are now engaged in negotiating contracts with gas producers in the Canadian fields. The proposed pipeline initially will deliver 400-million cubic feet of gas daily to the San Francisco Bay Area.

Construction will be started as soon as formal government clearances are obtained in Alberta, Ottawa and the United States.

Covering a 1300-mile distance, the line will originate in the Alberta foothills and follow a route west of Calgary spanning the Canadian Rockies and will traverse portions of Idaho, Washington, Oregon and Northern California, terminating at an existing PG&E station at

BUSINESS — Allied Paper Corp., formerly named Thor Corp., was incorporated in Illinois in 1596. Its principal executive offices are located at Prudential Plaza, Chicago 1, Ill.

Until 1955, Allied had been engaged principally in the manufacture of washing machines and other home laundry equipment under the trade name "Thor." However, new management elected early in 1955 decided it was not practicable for Allied to remain in this business and instituted a program involving the disposal of assets relating to the manufacture of home appliances and acquisition of other businesses.

businesses.

Allied is now engaged principally in the manufacture of coated and uncoated book and specialty papers and a subsidiary, Allied-Albany Paper Corp., control of which was acquired on Jan. 15, 1957, is expected to commence commercial production of newsprint and light-weight groundwood catalogue and rotogravure paper within the next 60 days. The paper business accounted for 82% of the consolidated net sales of Allied for the year ended Dec. 31, 1956.

In addition to its paper business, Allied has four operating subsidiaries which are engaged in the manufacture of Christmas tree ornaments and electronic relays, solenoids and related products.

Subsidiary Acquires Deltronic Corp.—

Phillips Control Corp., a subsidiary of Allied Paper Corp., on Aug. 19 announced it has entered the sub-miniature electrical relay field by purchasing the assets and business of Deltronic Corp., a subsidiary of Signal Oil & Gas Co. Sub-miniature relays are used in military production. Phillips now manufactures a full line of relays and solenoids for commercial use, including power, telephone and vending machine type relays.

type relays.

The Deltronic sub-miniature relay, in development for three years, is fully covered by patents, according to Phillips' President, John W. Ayers. He said that the design, which is unique, has been approved for use in all military aircraft.

Phillips will continue to operate at the Deltronic plant in Los Angeles, Calif., according to Mr. Ayers, but larger production facilities for the new relay will also be established at the Phillips plant in Joliet, Ill.—V. 186, p. 725.

The need for a strong American freight service to and from the strategic areas on the APL round-world line has made it necessary strategic areas on the APL round-world line has made it necessary at the sounder the fleet of fast freighters as soon as trategic areas on the APL round-world line has made it necessary to move rapidly to complete the fleet of fast freighters as soon as possible. As a result, the two combination type vessels designed to carry 120 passengers, which had earlier been planned for this service, have now been delayed for later construction. Final decision on these two combination vessels will be made in June, 1959, Mr. Killion said. The company is also proceeding with the design and plans for a super passenger liner for the California to the Orient trade as part of its \$325,000,000 construction program. This vessel has been scheduled by the Federal Government for construction in 1958.

The two new cargo liners on which bids will be invited this month (September) will be of an improved Mariner type and will cost about \$14,000,000.

Avco Manufacturing Corp.—Shock Tube Research-

A major theoretical breakthrough on the 5000-mile inter-continental ballistic missile program has now been made, it was disclosed on Aug. 28 by the Air Force Ballistic Missile Division (ARDC) and Dr. Lloyd P. Smith, President of the Research and Advanced Development Division of Avco Manufacturing Corp.

Until the Avco Research Laboratory began its shock tube experiments, little was known about the field of super-speeds and super-temperatures. But creation of shock waves in the laboratory, to duplicate "re-entry" effects, has led to the theoretical shortcut that permitted nose cone design to go ahead rapidly before actual flight test information was available.

It was recently disclosed that Avco had been awarded a contract for \$111,308,359 for development of the Titan nose cone.—V. 186, p. 110.

"The substantial reduction in profits is due to inventory losses brought about by the reduction in price of copper of approximately seven cents per pound since Jan. 1, 1957.

"The company's expansion and decentralization program is being carried out on schedule, \$1,595,000 having been spent this year to date, and a further \$3,600,000 anticipated expenditures for the balance of

the year.
"Construction of the new magnet wire plant at Simcoe, Ont., Canada, is proceeding rapidly and is expected to be in operation early next

"The old Calgary office and warehouse have been sold; a new building erected, and now in service.

"Fifteen acres of land have been purchased on Annacis Island, near New Westminster, B. C., to provide additional facilities to care for the West Coast market. A contract has been let to erect a new plant on this site, completion being scheduled for this year."—V. 182, p. 811.

Payment of the original issue of \$4,800,000 dated June 1, 1946 was anticipated by four years. The directors are giving consideration to the possible future issuance of debentures which could be used largely to acquire investments producing ordinary income as well as those with growth potentials.

Additional debt retirement included payments on first mortgages in the amount of \$460,000 as well as repurchase and retirement of 745 shares of the company's preferred stock with a face value of \$74,500. The total of these items is \$943,500. New first mortgage

Clark Equipment Co.—Interest in German Firm—
This company announced on Aug. 22 the acquisition of a 30% equity interest in the West German manufacturing concern which has been producing Clark fork lift trucks under license since 1952.
The company, Ruhr Intrans Hupstapler G.m.b.H., is located at Mulhelm-Ruhr on the industrial outskirts of Dusseldorf. The equity interest was obtained in exchange for 18,000 shares of Clark common stock (which has a present market value of approximately \$1,000,000). Ruhr Intrans, Clark's largest overseas licensee, will not only continue the manufacture of dieset and battery-powered fork lift trucks but will also start producing the "Michigan" line of tractor shovels this Fall, according to Walter E. Schirmer, Clark Vice-President in charge of international operations.

Acquisition of an equity interest in the West German fork lift truck manufacturer is part of a long-range expansion program that will provide Clark with manufacturing facilities in almost every industrialized market in the free world.—V. 186, p. 523.

companies" in amounts proportional to our company's stock interest in such partnership companies.

The company has formed a corporate partnership with M. J. O'Brien Ltd., an old and reputable Canadian company, to explore some indicated iron ore reserves at Lac Albanel, Quebec, Canada. The Cleveland-Cliffs Iron Co. owns 55% of the common stock of this corporation, which is known at Albanel Minerals Ltd. It is anticipated that several steel companies will ultimately take an interest in developing these iron ore reserves.

The Humboldt Mining Co. expension and plans for financing it have been deferred pending further research on methods, design, choice of equipment, etc.—V. 185, p. 2096.

Douglas Oil Co. of California—Drilling Program Started

Douglas Oil Co. of California—Drilling Program Started This company has embarked upon an aggressive development drifting program in Santa Maria, East Anaheim and West Wilmington, Calif., it was announced on Aug. 28 by W. G. Krieger, President. Through its recent acquisition of Apex Petroleum Corp., Ltd., Douglas Oil new has a joint interest in 66 wells completed in the West Wilmington field since development originally was started in April of 1956, the announcement said. Douglas Oil's operating interest varies in that field, but in general it has a one-third partnership with Morton & Dolley and F. E. Fairfield, each owning one-third. In addition to the 66 wells, which are producing 2,200 barrels per day, one well currently is drilling and two more locations have been staked. Site clearances and permits are progressing on a number of additional locations and approximately 25 new drill sites are set for partnership to drill.

This same joint venture also has just redrilled and completed a

This same joint venture also has just redrilled and completed a well in the East Anaheim area, which currently is producing slightly over 100 barrels per day of 15 gravity oil. An offset location presently is drilling below 3,920 feet on this same a racture.

The third major new development drilling activity is on 1,320 acres of land in the Cat Canyon area of the Eanta Maria Valley. Douglas oil Co.is the operator on this acreage and has graded a location to start a second well on the Porter Lease. Douglas owns 50% of this operating interest with Apex, Atlantic and Fairfield equally sharing the other half.

"This is an area of large potential and starting in a real of large potential and starting in the same area.

"This is an area of large potential production of heavy crude in the 11 to 12 gravity range," Mr. Krieger said, "but presents problems of sand and formation movement." The current completion with a red-drill in March "has been so encouraging," he added, that the second trial now is being made. The company anticipates that a number of additional locations will be drilled in this area after only a short observation of the newest attempt

Mr. Krieger also reported that over 90% of the common stock of Apex Petroleum Corp., Ltd., has been turned into Douglas Oil Co. in return for the 5½ 12-year convertible debentures offered to Apex shareholders recently.—V. 186, p. 524.

Electric Storage Battery Co.-Merger Planned-

C. F. Norberg, President of this company and D. W. Tyrrell, Chairman of the Board of Ray-O-Vac Co., on Aug. 26 announced that their boards of directors had agreed in principle, that the business and assets of the two companies should be combined, subject to results of checks and investigations now in progress and to such stockholder action as may be required.

action as may be required.

If effected, the basis for the combination will be the issuance of one share of Electric Storage Battery stock for each two shares of Ray-O-Vac, the anneuncement indicated.

The operations of the two companies are complementary and not competitive, it was stated. The Electric Storage Battery Co. manufactures industrial and automotive storage batteries and Ray-O-Vac is primarily a manufacturer of flashlights and flashlight batteries.

For the 12 months ending June 30, 1957, Electric Storage Battery sales were \$39,200,000 and Ray-O-Vac sales were \$40,200,000.—V. 186, p. 213.

Fall River Power Co., Colorado Springs, Colo.-Files Common Stock Financing Proposal-

The company filed a registration statement with the SEC on Aug. 1957, covering 500,000 shares of its common stock. The company 23, 1957, covering 500,000 shares of its common stock. The company proposes to offer these shares for public sale at \$2 per share. No underwriting is involved.

underwriting is involved.

In addition to its hydro-electric facilities, water rights, and the Lucania transportation tunnel, the company owns certain mining properties. The power plant was last operated in 1945. The business intended to be carried on is that of a public utility and the operation of the mining properties. Mining development is said to be

in progress with the company reopening the Rara Avis Mine in Gilpin County, Colorado.

Immediately prior to the preparations for this issue of stock, Henry de Linde, Idaho Springs, Colo., owned all of the authorized stock of the company, or 2,000 shares of \$100 par. He sold 422 shares for \$150,000 to a new group of stockholders, and then sold 1,411 shares to the company in exchange for a \$500,000 note, due and payable Dec. 1, 1957. The new management recapitalized the company to 3,000,000 shares of no par stock; and the stock was then split on a 597-for-1 basis. 597-for-1 basis.

The new group includes Mark H. Stepelton, President, of Colorado Springs, who owns 650,000 shares (or 49.206% of the reclassified shares); Roland L. Wisdom, Vice-President, of Belton, Mo., 118,876 shares; and Donald U. West, Secretary, of Richards-Gebaur AFB, Mo., 120,536 shares. Mr. Linde still owns 250,000 shares. Messrs. Stepelton, Wisdom, West and de Linde received 969,395 of these shares in exchange for certain properties. According to the prospectus, the combined cost of the stockholdings of the promotion group is \$176,-311.10 (including the \$150,000 paid to Mr. de Linde) and properties worth in excess of \$50.000.

worth in excess of \$50,000.

Proceeds of the sale of the 500,000 shares to the public will be used as follows: \$500,000 to pay off the de Linde note: \$50,000 for equipment; \$150,000 for milling facilities \$25,000 for development work; \$21,000 for certain miscellaneous expenses; and \$224,000 as a reserve for acquisition of additional property, equipment and mining operations, and for other working capital.

Federal Machine & Welder Co.—Acquisition—

This company has acquired a controlling interest in Berkeley-Davis, Inc., Danville, Ill., according to A. S. Blagden, President.

Berkeley-Davis, Inc. has been in operation for several years as a builder of special machinery, specializing in automatic arc welding equirment. It has been owned and operated by John P. Berkeley and Charles Davis, who will continue with a substantial ownership and as the operators of the company. This company now owns and operates in a small modern industrial plant with a present capacity of approximately \$500,000 annually, which can be increased from time to time, as conditions warrant.—V. 186, p. 524.

Flour Mills of America, Inc.—Reports Loss-

Although operations of this corporation in the fiscal year ended May 31 were "disappointing," conditions currently existing justify an "encouraging outlook for the future," J. R. Mulroy, President, stated

On Aug. 15.

The company reported the loss for the latest fiscal year was due in part to unprofitable commercial feed business of a recently acquired subsidiary and, to some degree, to unfavorable market conditions.

Most of the loss occurred in the operations of Bewley Mills, which had been acquired during the year through the issuance of 71,067 shares of common stock of Flour Mills. The consolidated net loss was \$703,014, of which \$655,843 was produced by the Bewley division. In

the previous fiscal year there was a net profit of \$690,590, or \$1.18 a common share, including income tax refunds and inventory adjustments totaling \$115,659.

Consolidated sales and operating revenues totaled \$69,268,760, up

Consolidated sales and operating revenues totaled \$69,268,760, up from \$49,523,312 a year before.

The company's financial condition, Mr. Mulroy noted, remains sound. Total current assets May 31 were \$10,766,246; including cash of \$1,614,623; accounts receivable of \$3,573,803 and grain inventories of \$3,573,808. Total current liabilities were \$7,770,485, including \$5,375,000 of notes to banks under a revolving credit agreement and \$1,000,000 of subordinated notes. Satisfactory credit lines have been arranged with banks and ample funds will be available to carry on a normal operation this year, he said.—V. 186, p. 525.

Forest Laboratories, Inc., Brooklyn, N. Y.—Proposes Common Stock Offering-

*After deduction of preferred dividends .- V. 185, p. 1042.

This corporation on Aug. 23 filed a registration statement with the SEC covering 200,000 shares of its capital stock, 10c par, to be offered for public sale at \$2.50 per share. The public offering is to be made on a "best efforts" basis by Mortimer B. Burnisde & Co., Inc., for which it will receive a selling commission of 50c per share. The issuer also will pay the underwriter \$12,500 to reimburse it for expenses. In addition, the issuer is obligated to pay a finder's fee out of proceeds of \$.0625 for each share sold.

This corporation was organized under Delaware law on April 11, 1956 for the purpose of acquiring the assets of Bonded Laboratories, Inc., a New York corporation. It is engaged primarily in the business of developing, manufacturing and selling various drugs and pharmaceutical products, as well as importing cosmetic compounds and preparations from foreign markets for sale in this country. Both the company and certain of its products are said to be in the develop-

and preparations from foreign markets for sale in this country. Both the company and certain of its products are said to be in the development stage, and its operations have been conducted at a deficit arising from operational, organizational and development expenses. Bonded Laboratories, Inc., Hans Lowrey (the President and sole stockholder of Bonded Laboratories and also President of Forest Laboratories), Joseph H. Leeds and Anthony Leeds are listed as promoters. Bonded Laboratories owns 66,700 shares (37.3%) and Joseph H. Leeds, 23,000 shares (12.8%) of the outstanding stock of Forest Laboratories. Of the net proceeds of the sale of the shares, Forest Laboratories proposes to use \$140,000 for the expense of its sales force and promotion of the company's products; \$73,000 for working capital; \$60,000 for additional inventory and accounts receivable; \$50,000 for research for development in respect of new products; \$40,000 for stabilization of the market; and \$12,500 as the finder's fee.

Acquires New Curing Method-

Acquires New Curing Method—

Patent rights and trademarks covering manufacture and distribution of a new curing method for retreading tires have been purchased by this company from Gibbs Research & Manufacturing Corp., of Jamesville, Wis., it was announced on Aug. 26 by Victor Holt, Jr., Goodyear Vice-President, who said the transaction also includes purchase of equipment for manufacture of the new curing method.

The Gibbs Electronic Speed Cure is a method of opplying heat to the inside of a tire casing while it is in the mold for retreading. At the same time heat is applied from the mold itself.

Use of the system, said Mr. Holt, will cut average curing time of retread tires about 50% while assuring more uniform cures which result in longer tread wear. Another advantage is the substantial increase in retread production made possible without costly additions of floor space and equipment.

of floor space and equipment.

Manufacturing equipment and production of the new items will be transferred to Goodyear plants and the bands and control units will be made available to retreaders through the Goodyear sales organization. V 186 b. 420 tion.-V. 186, p. 420.

This company was formed last year to construct and acquire storage facilities for excitational reports of for the requirition of securifacilities for agricultural products and for the acquisition of securi-

facilities for agricultural products and for the acquisition of securities of other corporations.

Shortly after the company was organized, it acquired grain elevator storage facilities at Garden City, Kan., with initial capacity of 792,000 bushels. Mr. Donnelly stated that the company will more than triple its storage capacity during the current fiscal year, pointing out that it already has completed a warehouse on President's Island, Memphis, Tenn., with capacity of 792,000 bushels, and that construction is currently under way on a grain storage warehouse having capacity of 883,000 bushels at Wales Road, Toledo, Ohio. It is anticipated that this plant will be completed by the end of this month.

It is anticipated that this plant will be completed by the end of this month.

With capacity more than tripled during the current year, Mr. Donnelly predicted that earnings of Grain Elevator during the fiscal year which just started will be more than adequate to provide for interest charges, depreciation, thus showing a profit for the common stock. It is anticipated that the full benefits of the added facilities will become increasingly reflected in the earnings of Grain Elevator later in the current year after normal non-recurring start-up expenses are out of the way. The company, therefore, looks forward to a successful operating year, he concluded.—V. 185, p. 719. to a successful operating year, he concluded .- V. 185, p. 719.

Grumman Aircraft Engineering Corp.—Navy Contract

This corporation's transonic fighter-trainer, the F9F-8T Cougar, will be ordered by the Navy to fulfill fleet requirements for that type aircraft, according to an announcement issued by the Navy on Aug. 21. Overall dollar value of the contract was not disclosed, nor was the total number of airplanes to be ordered. A Grumman spokesman, however, said the contract would "probably be a substantial one." The announcement also said that no changes would be made in the current contract for the firm's supersonic F11F-1 Tiger, and that small initial production quantity was planned for a new version of Grumman's S2F Tracker, an anti-submarine airplane. The F9F-8T, a two-seat version of the Cougar jet fighter, is in service with the Navy as an operational fighter-trainer. fighter-trainer.

Also in current production or development at the Bethpage plant for the Navy are the TF-1 Trader, cargo-passenger airplane, the WF-2 Tracer, an early-warning airplane, and the F9F-8P photo-recon jet. The Albatross amphibian is also in service with the Navy, as well as with the Air Force and the Coast Guard. In addition to military aircraft production, the firm is developing a turbo-prop executive transport airplane scheduled for delivery in May of 1958.—V. 186, p. 525.

Gulton Industries, Inc., Metuchen, N. J .- To Produce Laminagage Under General Motors License-

This corporation has been awarded a license for the production of a Laminagage, under patent rights held by the General Motors Corp., it was announced on Aug. 30 by Dr. Leslie K. Gulton, President. The Laminagage is a production tool used for the checking of platings and coatings on metals and other electrically conductive materials. In use on the production or assembly line, the instrument measures thickness of enamel or ceramic coatings and metal platings to extremely fine tolerances, and can detect pinholes and flaws in production line items not readily seen by inspectors. Such other applications as the testing of skins and vital engine parts in supersonic and hypersonic aircraft, guided missiles and rockets, against corrosion and damage due to plating or coating irregularities, are also rosion and damage due to plating or coating irregularities, are also

Indian Head Mills, Inc.—Proposed Merger—

Final terms of the agreement of merger between this corporation and J. L. Stifel & Sons, Inc. have been approved by the directors of both companies, it has been announced by James E. Robinson, President of Indian Head, and W. Flaccus Stifel, President of Stifel. Special meetings of stockholders of both companies to vote on the merger have been called for Sept. 12, 1957.

After the merger agreement is approved by stockholders of both companies, the merged business will be conducted under the name of Indian Head Mills, Inc. The present officers of Indian Head will hold corresponding offices. In addition to the present board of directors of Indian Head, A. C. Stifel, Jr. and W. Flaccus Stifel, who are presently directors and officers of Stifel, and Jay T. McCamic, presently a director of Stifel, will become directors of the combined company.

An Aug. 6, 1957, the Stifel board declared a stock dividend of one and two-thirds shares of its capital stock on each one share of the then outstanding 307,440 shares of capital stock (\$5 par value). This results in a new total of 819,840 outstanding shares of Stifel capital

Under terms of the merger, each share of the \$1.25 cumulative preferred stock and each share of the presently outstanding common stock of Indian Head Mills, Inc. will continue on the same basis as shares of the combined company. Each share of Stife capital stock will become one-fourth of one share of new voting \$20 par cumulative preferred stock of the combined company with a \$1.50 annual dividend rate. The new \$1.50 preferred stock will be tunion to the \$1.50 preferred stock. rate. The new \$1.50 preferred stock will be junior to the \$1.55 preferred stock and will have a liquidating and call price of \$25 preferred stock and will have a liquidating and call price of \$25 per share. This \$1.50 stock will be serviced by a sinking fund into which Indian Head Mills, Inc. would make an initial payment of a cash sum equal to 4% (\$204,960) of the aggregate call price of the stock on Nov. 1, 1957 and 1% (\$51,240) of the aggregate call price quarterly thereafter.

Each share of the presently outstanding \$1.25 cumulative preferred stock and each share of the presently outstanding common stock of Indian Head Mills will continue as a share of \$1.25 preferred stock and common stock respectively of the combined company.

Thus, upon effectiveness of the merger, Indian Head Mills, Inc. will have outstanding 194,116 shares of \$1.25 preferred stock (including shares held for retirement in the sinking fund), 204,960 shares of \$1.50 preferred stock and 229,000 shares of common stock.

The combined company will have assets of more than \$15,2 a total sales volume of about \$25,000,000.

Executive and principal sales office will be at 1407 Broadway, New York City.

Introduces New Line-

This corporation has introduced a new line of curtain prints, 35/36 inches wide, on soft-filled sheetings, designed both for curtain manufacturers and the over-the-counter piece goods field.

Industrial Enterprises, Inc.—Earnings Increased-

Net earnings for the first six months of 1957 ended June 30 rose to \$544,140, equal to \$1.77 a common share, from \$486,031, equal to \$1.58 a common share, for the similar period of 1956, on a pro forma basis, Walter E. Bronston, President, reported on Aug. 16.

Net sales and operating revenues for the six months ended June 30, 1957, advanced to \$8,141,331 from \$7,555,338 in the same period a year eariler, pro forma.

Mr. Bronston pointed out that net earnings for the six months were diminished by provision of \$85,000 in the second quarter for the Incentive Compensation Plan. This sum represented compensation plan deductions for the entire six months, but deductions were not made until after stockholder approval during the second quarter.

The profit for the six months ended June 30, 1957, reflects the change from a "completed contract" basis to a "percentage of completion" basis in accounting for sales and profits of contract production in the Milwaukee Crane Division and The Vincennes Steel Division.—V. 185, p. 2803.

The new memory cell is based on the unusual properties of special superconducting materials which offer no resistance to the flow of electric current at extremely low temperatures. Even after the source of electricity is removed, current will continue to flow without diminution. An additional advantage of the device is that it requires only about a third of the current needed to drive the ferrite memory units now widely used in electronic computers, while providing an increase in speed of about a hundred times.—V. 186, p. 526.

International Glass Corp.—Merger—Change in Name

The stockholders on Aug. 23 supported another step in the company's program of divisional growth and corporate expansion by approving the acquisition through merger of Cascade Research Corp., Los Gatos, Calif., Benjamin B. Smith, President, has announced.

The shareholders also voted to accept Monogram Precision Industries, Inc. as the new name of the corporation, effective upon approval of the California Secretary of State.

The two electronic concerns will be housed in a new building in Campbell, Calif.

Terms of the merger call for a ratio of exchange of 2½ shares of International Glass stock for each Cascade class A share, and one share for 3½ shares of Cascade class B stock. The exchange involves 94,580 shares of International Glass stock.

International Glass will have approximately 4,500 stockholders with 1,192,899 shares outstanding.

Other International Glass divisions are engaged in critics, industrial clamps, and fabricated electronic and missile components.

An additional building in the Culver City, Calif., area is being leased to handle the increased missile and electronic fabrication work, Mr. Smith told the stockholders. See also V. 136, p. 840.

The second phase of the drilling program for developing the 80.000-acre area of interest in the East Caigary field will require the drilling of four wells at an estimated total cost of \$1,000,000. In order to make available enough gas for meeting wineling scale and for supplyavailable enough gas for meeting pipeline requirements and for supplying the sulphur plant with enough hydrogen-sulphide gas to enable the plant to operate at capacity, the company intends to undertake additional development of the field. A portion of the net proceeds may

used for these purposes.

The total investment by the company in gas processing and sulphur recovery plants in the East Calgary field and in the Savanna Creek area of Alberta may come to about \$15,000,000. A part of the net area of Alberta may come to about \$15,000,000. A part of the net proceeds may be used for such purposes in the event that the funds required for the plant investments are not raised in full directly by the company or through a subsidiary.—V. 186, p. 840.

Jewel Tea Co., Inc.—Establishes New Records—F. J. Lunding, Chairman of the Board, and G. L. Clements, President, on Aug. 28, said in part:

New records were again established in sales and earnings during the first 28 weeks of 1957. Net earnings were \$3,550.092 or \$2.35 per share of common stock, a gain of 18.4% from comparable figures a year ago. Retail sales were up 8.8% and totaled \$219,591,235. These results and comparisons with last year include the operations of Eisner Grocery Co., acquired on March 12, 1957 through the exchange of 142,000 Jewel common shares. Kern County Land Co.-Earnings Show Gain-

Consolidated net earnings of this company and its subsidiaries were \$5,790,000 for the first six months of 1957, Geo. G. Montgomery, President, reported on Aug. 15. This compares with \$5,571,000 for the same period of 1956. The gain in earnings results from increased oil royalties and improved cattle prices.

Mr. Montgomery pointed out that because of the seasonal nature of the company's agricultural activities, the first half figures are not necessarily representative of the year as a whole.—V. 186, p. 319.

"Koor" Industries & Crafts Co., Ltd., Haifa, Israel— Registers Preferred Stock Issue-

This company filed a registration statement with the SEC on Aug. 26, 1957, covering 30,000 6½% cumulative participating preferred shares (II 180—\$100 par), to be offered for public sale at \$100 per share. No underwriting is involved. The purchase price is payable in cash or up to certain limits in State of Israel Independence Issue Bonds and State of Israel Development Issue Bonds.

Organized in 1944 by Solel Boneh, Ltd. or Haifa, Koor has functioned as the industrial arm of Solel Boneh in the management and further development of manufacturing and related enterprises.

Koor intends to use the net proceeds of the sale of the preferred shares to provide its subsidiary and affiliated companies with funds for extensions, additions and improvements of their plants. The proceeds of this offering will not form a substantial part of the funds required for the development program already undertaken, which funds will be provided mainly from other sources.

(R. G.) LeTourneau, Inc. - Tender-Type Platform

Another "first" in the field of offshore oildrilling was announced on

Aug. 21 by this corporation.

This time it was in the form of a world's first "miniature" mobile platform designed specifically for use with a platform tender.
Buyer of the new-type unit is Arabian American Oil Co. of New
York. When completed, it will be towed across the Atlantic to work
in the Persian Gulf off Saudi Arabia.

R. L. LeTourneau, Vice-President of the LeTourneau firm, said the agile job-hopper sold for less than \$750,000—relatively small change in an industry where even permanent-type platforms often cost over \$1,000,000;

Also he said that, due to simplified construction, the unit is sched-

Mr. LeTourneau emphasized, however, that the diminutive size and bargain-basement price are due to the fact this unit will be used only with a platform tender.—V. 186 p 626.

Louis Nizer, special counsel for Loew's, Inc., on Aug. 26 issued the following statement:

following statement:

"The Court has upheld Loew's position in every detail. The victory is the stockholders. The Court has declared Louis B. Mayer and Samuel Briskin to be invalidly elected by the rump Tomlinson group. The Court enjoins them from pretending to act as directors. Also, all resolutions adopted by the Tomlinson rump meeting are declared illegal. Furthermore, the Court has forbidden Tomlinson group to implement the resolutions, one of which attempted to repudiate the special stockholders' meeting called by President Joseph R. Vogel. The entire attack of the Tomlinson-Meyer-Mayer faction has been rejected by the chancellor and the entire position of Mr. Vogel and the executive management has been upheld. We are confident that the owners of Loew's will support Mr. Vogel's administration."—V. 186, p. 626.

Maine Insurance Co., Portland, Me.—Proposed Stock Offering Registered With SEC-

This company filed a registration statement with the SEC on Aug. 22, 1957, covering 52,500 shares of its \$3 par capital stock.

The company has reserved 11,000 shares for sale at \$5.3125 per share to stockholders of record July 1, 1957, at the rate of one additional share for each share then held. Any such shares not subscribed by stockholders will be purchased by Burton M. Cross, company President.

The remaining 42,500 shares are to be offered at \$5.625 per share to directors, employees and agents of the company for a period of 14 days after the effective date of the registration statement. The prospectus names First Maine Corp. as underwriter; and the underwriter will receive \$0.3125 per share for each share purchased by these associates of the company. Unsubscribed shares will be offered for public sale at \$6.25 per share; and as to these shares the underwriting commission will be \$0.9375 per share. In addition, the underwriter will receive \$10,000 for expenses.

Net proceeds of the sale of the 53,500 shares will approximate \$284.218.75 (assuming all shares are sold) which, together with \$65,986.39 received from prior sales of 13,500 shares, will give the company a combined ca, ital and surplus of \$350,205.14. Minneapolis-Honeywell Regulator Co.—Expands Into Production of Plastics—

Entry into full-scale production of plastics by this company was announced on Aug. 27 by James H. Binger, Vice-President.

The company is producing four epoxy casting and potting compounds designed especially for the electronics industry, Mr. Binger said. Manufacturing operations are centered in the company's main plant in Minneapolis, Minn.

(Epoxy compounds is a technical term indicating the presence of oxygen attached to two different atoms in a chain.)

This new diversification for Honeywell, which currently produces more than 13,000 different products in the field of automatic control, grew out of eight years of development. The research program was started originally to satisfy precise potting requirements of the firm's Aeronautical division, Mr. Binger explained.—V. 186, p. 841.

National Airlines, Inc.—Gross Up—Net Off—
This corporation earned net profit equal to \$3 per share in fiscal 1957, the 12 months ended June 30, it was reported on Aug. 15 by G. T. Baker, President and Chairman.

Net income was \$3,133,499 after all charges compared with \$4,300,143 in the same period a year ago, Mr. Baker said.

"Operating cost increases due principally to steadily mounting labor and material costs are still the major problem," Mr. Baker stated. "However, an increase of 31.9% in depreciation charges this year to \$6,003,567 is also a factor in the comparison."

Total operating revenue was up \$1,354,623 to \$56,823,471 while total operating expense increased \$4,537,631 to \$50,815,430, according to Mr. Baker.

Gain in National's net worth this year, resulting in shareholder equity of \$25,54 per share in 1957 compared to \$23,51 per share last year, was also reported by Mr. Baker.

Delivery begins on eight DC-7B Super H. Constellation aircraft next month, Mr. Baker pointed out, which will provide more than 2,000 additional seats daily on National flights.—V. 186, p. 627.

This company on Aug. 28 filed a registration statement with the SEC proposing the public offering of \$17,500,000 of subordinated debentures due Sept. 1, 1977 (convertible on or before Sept. 1, 1967). The company proposes to offer the debentures for public sale through an underwriting group headed by Merrill Lynch, Pierce, Fenner & Beane. The interest rate, public offering price and underwriting terms are to be supplied by amendment.

Net proceeds from the sale of the debentures will be added to the cash funds of the company to be available for general corporate purposes. The company plans to use a part of such proceeds to retire \$6,000,000 of bank notes and \$1,365,000 of other indebtedness. The company plans to use the balance of the proceeds for expansion of facilities and to increase working capital for the growing needs of the company. According to the prospectus, proceeds of the bank notes were used for working capital; and the proceeds of the other indebtedness were used for working capital; and the proceeds of a plant in Louis-ville, Ky., production facilities in Detroit, Mich.; the assets of a medicinal oxygen company in Pittsburgh, Pa.; and the welding inventory of a dealer in Colorado Springs, Colo.—V. 186, p. 731.

Alfred E. Perlman, President of the Central, said the July figures showed the effects of the continuing inflationary spiral of wage and material costs. In addition, he pointed out, there was an extension in July of the generally lower business activity which characterized most major freight commodity groups during the year. Of specific damage to the Central's traffic were several serious strikes in industries on its line. its line

He also pointed out that spending for the railroad's heavy physical improvement program had not been reduced during the month.—V. 186, p. 215.

Northeastern Steel Corp.—Reorganization Plan Held Unfair by SEC-

Unfair by SEC—

The Securities and Exchange Commission on Aug. 27 announced the filing with the U. S. District Oourt for the District of Connecticut, of an Advisory Report of the Commission, pursuant to The Bankruptey Act, on a proposed plan of reorganization for this corporation which is a non-integrated steel producer in Bridgeport, Conn. The plan of reorganization proposed by J. William Hope and Richard Joyce Smith, Trustees, is based on an offer by Carpenter Steel Co., a New Jersey corporation which manufactures specialty steel products.

In general the plan provides for the recapitalization of Northeastern so that it would have oustanding the present \$6,000.000 principal amount of first mortgage bonds with defaults cured and 1,000,000 shares of new common stock. The 1,000,000 shares of stock would be issued to Carpenter in exchange for shares of Carpenter's own common stock, the specific number to be determined by formula, with a minimum of 40,000. The Carpenter stock will be distributed to a bank with a claim of \$250,000, to holders of general unsecured claims, and to debenture holders in satisfaction of their claims on the basis of a formula. To the extent cash is available after satisfaction of prior claims, it will be used to discherge the note held by the ba k. The plan does not provide for the participation of stockholders, warrant holders or option holders.

The plan does not provide for the participation of stockholders, warrant holders or option holders.

The Commission's report concludes that the plan of reorganization is unfair in that the consideration offered by Carpenter in shares of its common stock does not represent fair compensation for the interest in the assets and facilities being acquired by it. Moreover, the Commission concluded that the plan in order to be fair shold be amended to eliminate the discriminatory formula for determining the distribution and allocation of the Carpenter stock. However, the Commission reported that the exclusion of stockholders, warrant holders and option holders from participation was fair since the indicated value of the debtor is less than the full claim of the creditors. As to feasibility, the Commission's report concludes that in view of As to feasibility, the Commission's report concludes that in view of Carpenter's debt-free capitalization and working capital position, the

A \$25,000,000, 150,000-kilowatt unit will be added to this company's Black Dog generating plant south of the Twin Cities in 1960, officials announced on Aug. 28. Construction of the giant new unit will start

announced on Aug. 28. Construction of the giant new unit will start this Fall.

Cost of the new Black Dog unit is equivalent to 72% of all construction permits for buildings of all types granted in Minneapolis last year. It will bring NSP's investment in the Black Dog plant to more than \$65,000,000. The plant now includes three units having a combined generating capability of 300,000 kilowatts. This will be boosted to nearly 500,000 with the addition of unit No. 4.

A similar unit is now being added to NSP's High Bridge plant in St. Paul and is expected to be in operation in 1959. Each will have rated capacities of 150,000 kilowatts but will be capable of producing 170,000 kilowatts. These will be the largest generating units on the NSP system and among the most efficient in the nation.

Black Dog plant is one of the 66 plants serving NSP customers in more than 500 communities in Minnesota, Wisconsin, North and South Dakota. The plant is located on the Minnesota River.

The company's total generating capability is now nearly 1,500,000 kilowatts. In 1959 the new High Bridge unit will bring this total to more than 1,600,000 and the following year the company's generating capability will exceed 1,775,000 kilowatts.—V. 186, p. 842.

This corporation has purchased a site near Montville, Conn., where it will erect a small plant for the assembly of nuclear reactor cores, Edward Hartshorne, General Manager of the Nuclear Fuels Division, New Haven, has announced. Montville is north of New London, Conn. Components for the reactor cores will continue to be made in the company's New Haven plant.

At this time no date has been set for the beginning of construction, but plans call for the plant to be completed in the Spring of 1958, and for the eventual construction of a larger plant in addition to the initial facility at the site, Mr. Hartshorne said.

At the time of the formation of the Nuclear Fuels Division in 1956, it was pointed out that the company had moved into the field because it believed that power from nuclear fuels was destined to play a vital part in the future growth of the nation's economy.

The company also produces high-energy liquid fuels and high-energy solid fuels. Announcement was recently made of the beginning of construction of a \$36,000,000 plant to make boron-based, liquid high-energy fuels near Niagara Falls, N. Y. The company has also made known that it was starting a four-year program to develop and produce high-energy solid propellants for rocket engines at its Ordill Works near Marion, Ill.—V. 186, p. 842.

Pacific Telephone & Telegraph Co.—Stock Offered— The company is offering to its stockholders of record Aug. 28 the right to subscribe on or before Sept. 30 for 1,822,523 additional shares of common stock at par (\$100 per share) at the rate of one share for each six shares of common and/or preferred stock held. The offering is not underwritten. The American Telephone & Telegraph Co., the parent, will receive rights to subscribe for 1,633,128 of the shares and intends to subscribe for such shares.

The offering to the public of \$90,000,000 23-year 51/8% debentures, due Aug. 1, 1980, made on Aug. 21 by Halsey, Stuart & Co. Inc. and associates at 102.387% and accrued interest, was quickly completed.

PROCEEDS—The net proceeds from the sale of the stock and of \$90,000,000 debetters in August are to be used to repay ad ances from the parent company and toward the cost of Pacific's construction

Penn-Texas Corp.—Omits Common Stock Dividend—

The directors on Aug. 26 voted the regular quarterly dividend of 40 cents per share on the \$1.60 cumulative convertible preferred stock, payable Sept. 30, 1957, to holders of record Sept. 16, 1957. No action was taken on the company's common stock.

According to an announcement by the board of directors, it was decided to pursue a waiting policy with regard to common stock dividends. This action was based upon the fact that the 4½% in stock dividends paid thus far in 1957 represented a total market value of 51 cents on the dates of declaration, while earnings for the first six months were 49 cents on the common stock.

Sales for the first half year were announced as better than \$69,000,000. The corporation's backlog of orders is approximately \$65,000,000.—V. 185, p. 2917.

Pfaudler Co., Rochester, N. Y.—Proposed Merger—

The stockholders of this company and of the Permutit Co. will have special meetings Sept. 16 to vote on the merger of the two firms under the name Pfaudler Permutit Inc.

Voting will be limited to stockholders of record at the close of business on Aug. 14. Approval by the holders of two-thirds of the outstanding shares of stock is necessary to form the consolidated corporation. There are 249,242 outstanding shares of Pfaudler stock and 220 000 shares of Permutit.

and 220,000 shares of Permutit.

The directors of both companies unanimously expressed their approval of the plan at meetings early in July. At the same time, announcement was made that Pfaudler had purchased approximately 25% of the outstanding shares of Permutit stock from Ward Indus-

The merger would be accomplished by an exchange of common stock on a basis whereby each Pfaudler shareholder would obtain 1.429 shares in Pfaudler Permutit Inc. for each Pfaudler share owned.

Permutit stockholders would receive one share of Pfaudler Permutit Inc. for each Permutit share owned.

Henry W. Foulds, Chairman of the Board and President of Permutit and Ranlet Miner, Board Chairman of Pfaudler, would become Chairman and Vice-Chairman, respectively, of the board of the combined companies. Pfaudler President Mercer Brugler would be President and Chief Frecutive, Officer and Donald A. Gaudion, Pfaudler Frecutive.

companies. Pfaudler President Mercer Brugler would be President and Chief Executive Officer and Donald A. Gaudion, Pfaudler Executive Vice-President, would be Executive Vice-President of the merged firms. Pfaudler had total domestic sales of \$22,03,012 in the fiscal year ended May 31, 1957, while Permutit had sales of \$13,909,810 in the fiscal year ended Dec. 31, 1956.

The shareholders' equities in the two companies show a relationship similar to the relative sales volumes. Pfaudler had a net worth of. \$9,782,648 as of May 31, 1957; Permutit's net worth amounted to \$5,495,580 on June 30, 1957.

Piasecki Aircraft Corp.—Backlog of Orders Rise—

Total unfilled orders for new development projects and other programs of this corporation at the present time approximately double those shown on June 30, 1956, it was disclosed on Aug. 27 by F. N. Piasecki, President. He reported that the company had made progress during the year despite some unforeseeable developments that affected anticipated improvement in operations. The combination of increased orders on hand, together with prospects for decreased non-recurring and non-productive expenses, should result in profitable operations during the current fiscal year, he stated.

Sales for the year ended June 30, 1957, increased to \$1,200,357 from the \$45,015 shown in the previous fiscal year. During that period, the company was in production only in the last four months.

In November, 1956, Plasecki Aircraft nequired the 334-acre site, plant and manufacturing facilities of the Aircraft Division of Bellanca Corp. at New Castle, Del. Acquisition of this plant resulted in heavy non-productive expenses due to unpredictable labor difficulties which resulted in an operating loss of \$508,437 for the 1957 fiscal year. This compares with a loss of \$283,119 in the previous fiscal year.—V. 186, p. 628.

Postman Co. (N. Y.) - SEC Issues Order Vacating Order of Suspension-

The Securities and Exchange Commission on Aug. 22 announced that,

The Securities and Exchange Commission on Aug. 22 announced that, at the request of violar and per all of the Augman, of New York, who proposed the formation of a limited New York partnership under the name The Postman Co., the Commission has vacated its order of March 22, 1957, temporarily suspending a Regulation A exemption from registration under the Securities Act of 1933 with respect to a public offering of \$25,000 of pre-formation limited partnership interests.

The March 22nd suspension order was based upon non-compliance with the terms and conditions of Regulation A, by reason of the failure to file the required semi-annual reports reflecting the amount of securities sold. Subsequently, a report of sales was filed, accompanied by an affidavit that the prior failure to file had been due to inadvertence. Under the circumstances, the Commission determined to vacate the suspension order.—V. 185, p. 1519.

Procter & Gamble Co.—Record Sales and Earnings—

Record figures for both sales and earnings were reached by this company during the past fiscal year, it was announced in the annual statement sent to the company's 56,000 shareholders.

For the 1956-57 fiscal year P&C's net sales totaled \$1,156,389,726, highest ever in the company's 120-year history. P&C passed the billion dollar sales mark for the first time last year with total sales of \$1,038,290,374.

Consolidated, net earnings reached a record bight of \$57,007,000.

of \$1,038,290,374.

Consolidated net earnings reached a record high of \$67,807,376.

Earnings equaled \$3.44 per share on the average number of common stock shares outstanding, an increase of 39 cents over last year's

earnings of \$3.05 per share.

During the fiscal year, P&C acquired various parts of the Duncan Hines business in August, 1956, the Charmin Paper Mills, Inc. business in January, 1957, and reached agreement with Clorox Chemical Co. in April, 1957, to acquire Clorox properties and business. The trans-

action was completed Aug. 1.

The statement also reported completion of two new plants in the U. S. and another in Belgium, the beginning of construction of a new plant in Canada, completion of a new research center in England and expansion of the company's cellulose pulp mill in Florida.—V. 186,

Public Service Co. of Indiana, Inc.-May Sell Bonds Privately-

This corporation cancelled plans to sell publicly \$35,000,000 of first mortgage bonds and applied to the Indiana P. S. Commission for permission to sell the securities to private investors. The 30-year 4%% first mortgage liens would be sold to a group of institutional investors.

The company has originally listed the public sale of these bonds in 1956, then set the date forward to Oct. 9, 1957. "We had a chance to make a private deal in line with what we think is the present market, and at least as good as we expect the market to be Oct. 9," commented' Robert A. Gallagher, President.-V. 186, p. 529.

Public Service Electric & Gas Co.—Bonds Offered— The First Boston Corp. and associates on Aug. 29 offered publicly an issue of \$60,000,000 first and refunding mortgage bonds, 4% % series due Sept. 1, 1987, at a price of 101.026% and accrued interest to yield 4.81%. The group was awarded the bonds on Aug. 28 at competitive bidding at 100.27999% for the indicated coupon.

Other bidders for the bonds as 47ss were: Kuhn, Loeb & Co. and Lehman Brothers (jointly), 100.159%; and Halsey, Stuart & Co. Inc.,

100.109%...
The bonds will not be redeemable prior to Sept. 1, 1962 out of proceeds of any refunding operation involving a cost of money in excess of the company's annual cost of money for these bonds, but are otherwise redeemable at the option of the company at regular redemption prices ranging from 106.03% for those redeemed prior to Sept. 1, 1958, to 100% for those redeemed after Aug. 31, 1986; and at special redemption prices ranging from 101.03% for those redeemed prior to Sept. 1, 1958, to 100% for those redeemed on or after Aug. 31, 1986.

PROCEEDS—Net proceeds from the sale of the bonds will be used by the company for payment before maturity of \$60,000,000 of unsecured short-term bank loans incurred in June, 1957 primarily for construction purposes. The company's current construction program approximates \$271,000,000, of which approximately \$70,000,000 has been or will be expended in the last six months of 1957, and the remainder in subsequent years. As of June 30, 1957, the company had construction commitments aggregating about \$87,000,000. It is enticipated that in order to finance its current construction program anticipated that in order to finance its current construction program the company will sell \$25,000,000 par value of its cumulative preferred stock in the fall of 1957 or in 1958, if market conditions are considered satisfactory, as well as other securities in 1958 and sub-

*1956 figures have been restated from those originally released to include a 4% stock dividend paid in December, 1956. *Based on average number of shares outstanding during each period.

Orders, shipments, and earnings for the second quarter of 1957 all exceeded first quarter 1957 and second quarter 1956 results, setting new highs for both the quarter and the first half. Orders averaged just under \$11,000,000 per month performing the shipment

just under \$11,000,000 per month, portending continuing high shipment volume for the ensuing months.

Second quarter earnings of \$1.20 per share raised the six-month total to \$2.15, compared with \$2.02 a year ago, adjusted to reflect the \$4% stock dividend paid in December, 1956. Profit ratios, however, 4% stock dividend paid in December, 1956. Profit ratios, however, declined slightly from a year ago reflecting extraordinary expenses in connection with recent acquisitions and the current modernization and expansion program, plus increased material and labor costs. Higher selling prices for some of our products, plus continuing cost reduction efforts, should combine to restore normal ratios for the year as a whole

The new plants at Porterville, Calif., and Knox, Indiana, were dedicated in June, adding 140,000 sq. ft. of plant area. The new 180,000 sq. ft. valve plant at Kearney, Neb., is progressing on schedule, and should be in limited production by the end of the year, it was announced.—V. 186, p. 530.

Royal McBee Corp .- To Build New Plant-

This corporation on Aug. 14 announced plans to build a portable typewriter manufacturing plant in Springfield, Mo.
Philip M. Zenner, President, said the new plant was part of a rong-range program to implement the company's expanding business and marketing plans in all its product lines, including data processing

equipment and electronic computers.

Construction and preparation for production will require about two years, and the plant will provide employment for about 1,000 persons, Zenner said.

The company's main facilities for the manufacture of electric, standard and portable typewriters are in Hartford, Conn. Production of Royal typewriters is now running at a rate of more than 500,000

whits a year.

The Springfield site, Mr. Zenner said, will provide important advantages in transportation of the portable machines to the more than 7,000 Royal dealers located in almost every community in the United

Mr. Bokum said these funds are adequate to build a 1,500-ton-perday processing mill in Valencia County, N. M., near Grants, and to carry forward the mining of ore bodies already delineated in Sections 15, 23 and 25 of McKinley County.

Mill construction has already begun, with a completion target date of April, 1958. A contract has been executed with the Atomic Energy Commission for the purchase of uranium concentrates produced. Shaft work has started on each of the sections, and further exploration is scheduled on the remainder of the properties.

Mr. Bokum said that the mill will be capable of producing approximately 2,000,066 pounds of uranium oxide a year, operating at capacity, and that it would handle ores from properties owned by the Westwater Corp. as well as the output of the Homestake-Sapin mines. Westwater Corp. is a wholly-owned subsidiary of Sabre-Pinon, stock in which is to be distributed share-for-share to Sabre-Pinon stockholders of record

Mr. Bokum said Sabre-Pinon will receive three-fourths of the profits of Homestake-Sapin Partners and Homestake Mining Company onefourth, after loans to the operating partnership for mining and construction have been repaid.—V. 186, p. 116;

Standard Shares, Inc.—Seeks Holding Company Act Exemption-

This corporation, it was announced on Aug. 26, has applied to the SEC for an order under the Holding Company Act declaring that it has ceased to be a holding company; and the Commission has given interested persons until Sept. 17, 1957, to request a hearing thereon. Standard Shares (formerly Standard Power & Light Corp.) registered as a holding company in 1938. It now owns approximately 45.6% of the common stock of Standard Gas & Electric Co. which, in turn, owns 100% of the common stock of Philadelphia Co. The latter two holding companies are subject to Commission orders requiring them to liquidate and dissolve, and they are now in the final stages of liquidation.

In February, 1956, the Commission approved a proposal of Standard Shares to transform itself into an investment company. Its only remaining public-utility interest consists of its stock holdings in Duquesne Light Co., which has been reduced to 4.58% of the outstanding shares; and it proposes to sell an additional 9,000 such shares. An additional 1.2% of Duquesne stock is held by Standard Gas and Philadelphia. Standard Shares has outstanding only common stock and a \$1,250,000 bank loan.—V. 186, p. 629.

Stanley Drug Products, Inc.—Registers in Oregon—

Registration in the State of Oregon of the proposed offering of 1,000 shares of 6% preferred stock at \$100 per share and 4,000 shares of common stock at \$25 per share is pending, according to an announcement by the company. See also V. 136, p. 734.

Steel Improvement & Forge Co.—Stock Offered—An underwriting group headed by Fulton Reid & Co., Inc., on Aug. 28 made a public offering of 77,000 shares of common stock (par \$1) at \$18 a share. Of these shares, 60,000 are being sold by the company and 17,000 by shareholders not in management.

PROCEEDS—The net proceeds of the 60,000-share sale will be used by the company to pay indebtedness and provide working capital for its newly acquired subsidiary, Custom Tool & Manufacturing Co., Minneapolis; to finance the moving of certain Steel Improvement operations into space recently leased adjoining its main plant in Cleveland; and to provide working capital.

BUSINESS—The company, which operates two plants in Cleveland producing standard and precision forgings for the aircraft, machinery, missile and other industries, has pioneered many forging applications of specialty metals such as heat-resisting alloys, titanium and molybdenum for use in jet and turbine engine components.

EARNINGS—Net sales in the fiscal year ended Sept. 30, 1956, were \$24,616,000 and after-tax earnings were \$886,000. In the nine months ended June 30, 1957, sales were \$24,620,000 and earnings were \$855,000,

DIVIDENDS—On July 26, 1957, a cash dividend of 10 cents per share and a 1% stock dividend were declared, payable Sept. 30, 1957, to shareholders of record Sept. 23, 1957. These dividends will accordingly be paid on the shares now offered. As long as the company's cash requirements for expansion continue, it is the intention of the company to pursue a policy of combining stock and cash dividends. Dividends per share in the ten years and nine months ended June 30, 1957, adjusted for the three-for-one stock split, were: 1947, 5 cents; 1948. 5 cents: 1949, 5 cents: 1950, 13 cents: 1951, 13 cents: 1959. 1948, 5 cents; 1949, 5 cents; 1950, 13 cents; 1951, 13 cents; 1952, 20 cents; 1953, 13 cents; 1954, 27 cents, 1955, 7 cents; 1956, 27 cents; nine months ended June 30, 1957, 20 cents.

Sterling Precision Corp.—Reports Loss—

The annual report for the fiscal year ended April 30, 1957, shows a loss for the 12-month period of \$1,329,796, James F. Connaughten, President, announced on Aug. 28. Of this amount, \$643,955 represents operating loss on net sales of \$36,659,418, and the remainder is made up of other charges. As a conservative measure, the company has also written off to deficit account for its fiscal year ended April 30, 1957, a number of special items totaling \$1,334,223, representing largely costs of certain intangibles and developmental work.

Mr. Connaughton states that action has been taken to eliminate further operating losses by curtailing substantially the operations of the company's Instrument Division and by discontinuing its Plastics Division. Although these measures could not be completed in time to show their full effect in the first quarter of the company's current fiscal year, operations for the three months ended July 31, 1957, have produced consolidated net income of \$241,166, Mr. Connaughton reveals.

reveals.

American LaFrance Corp., a leading manufacturer of five fighting apparatus and fire prevention equipment, and Yawman & Erbe Manufacturing Co., producers of steel desks and office equipment, to two principal and profitable subsidiaries of the company, are continuing to make progress, Mr. Connaughton states. He reports that American LaFrance is scheduled to commence delivery in the last quarter of the current fiscal year under an \$8,000,000 U. S. Air Force contract for crash trucks and that the company's sales of fire fighting apparatus and fire prevention equipment are growing. At the same time, Yawman and Erbe's products are enjoying a widening market, Mr. Connaughton states. He points out that these two subsidiaries produced a profit of \$2,188,968 during the past fiscal year.

Mr. Connaughton states. He points out that thees two substitutives produced a profit of \$2,148,968 during the past fiscal year.

No provision is being made for Federal income taxes on current earnings of substitutives because on a consolidated basis no tax has accrued due to the availability of loss carry-forwards from prior years, Mr. Connaughton states.—V. 186, p. 218.

THE COURSE OF BANK CLEARINGS

Bank clearings this week will show an increase compared with a year ago. Preliminary figures compiled by us based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, Aug. 31, clearings for all cities of the United States for which it is possible to obtain weekly clearings will be 6.2% above those of the corresponding week last year. Our preliminary totals stand at \$21,581,122,689 against \$20,322,930,142 for the same week in 1956. At this center there is a gain for the week ending Friday of 6.5%. Our comparative summary for the week follows:

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week—the week ended Aug. 24. For that week there was an increase of 2.0%, the aggregate clearings for the whole country having amounted to \$21,172,812,422 against \$20,767,798,046 in the same week in 1956. Outside of this city there was a gain of 4.3%, the bank clearings at this center showing a decrease of 0.6%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York Reserve District (including this city) the totals record a decline of 0.2% and in the Philadelphia Reserve District of 18.9%, but in the Boston Reserve District the totals register an improvement of 3.9%. In the Cleveland Reserve District the totals show a gain of 7.9%, in the Richmond Reserve District of 5.4% and in the Atlanta Reserve District of 7.6%. The Chicago Reserve District has to its credit an increase of 7.8%, in the St. Louis Reserve District of 7.9% and in the Minneapolis Reserve District of 18.0%. In the Kansas City Reserve District the totals are larger by 8.1%, in the Dallas Reserve District by 2.9% and in the San Francisco Reserve District by 6.5%.

In the following we furnish a summary by Federal Reserve Districts:

Condition Statement of Member Banks

The condition statement of weekly reporting member banks of the Federal Reserve System in leading cities shows the following principal changes for the week ended Aug. 21: Increases of \$253 million in commercial and industrial loans, \$207 million in loans to brokers and dealers for purchasing or carrying securities, \$741 million in Treasury bills, and \$1,700 million in U. S. Government deposits; and decreases of \$201 million in demand deposits adjusted and \$601 million in demand deposits credited to domestic banks.

Commercial and industrial loans increased \$163 million in New York City, \$40 million in the San Francisco District, and \$33 million in the St. Louis District. Changes according to industry appear in another press release.

Holdings of Treasury bills increased in all districts, largely reflecting a new tax anticipation issue. Holdings of Treasury certificates of indebtedness decreased \$73 million.

Demand deposits adjusted decreased \$141 million in the San Francisco District, \$59 million in the New York District outside New York, \$32 million in the Philadelphia District, and \$25 million in the Richmond District.

Borrowings from Federal Reserve Banks increased \$187 million, and borrowings from others decreased \$180

million. Loans to banks decreased \$140 million. A summary of assets and liabilities of reporting member banks follows:

† Exclusive of loans to banks and after deduction of valuation reserves; individual loan items are shown gross.

‡ Beginning Aug. 21, 1957, banks were requested to report holdings of securities acquired under resale agreements as loans, rather than as securities owned as heretofore; some banks began reporting on the new basis at earlier date. Published figures for prior dates have not been revised, but the effect of the new reporting on prior dates would be to decrease holdings of securities and to increase loans to banks and loans to brokers and dealers.

* Aug. 14 figures revised.

Texas Eastern Transmission Corp.—Gas From Mexico

Special ceremonies were held on Aug. 22 near Reynosa, Mexico, marking the commencement of operations of a new natural gas pipeline that for the first time in history will carry major quantities of Mexican gas into the United States.

Antonio J. Bermudez, Director General of Petroleos Mexicanos, the decentralized oil and gas agency of the Mexican Government, opened the valve that connected facilities of Petroleos Mexicanos (Pemex) with a new pipeline into the United States constructed by Texas Eastern Transmission Corp.

Initially some 126,000,000 cubic feet of natural gas will flow across the international border into the United States each day. This gas will be transmitted through Texas Eastern's 5,900-mile long natural gas system that extends through the Central United States and terminates on the Eastern Seaboard near New York.

The gas being imported will come from the Brazil, Trevino and Lomitas fields located in Northeastern Mexico. The gas will be processed at the natural gas processing plant of Pemex, located at Reynoas, Mexico, just acress the border from McAllen, Texas. The gas will be delivered from the plant into Texas Eastern's system at the border on the Rio Grande.

The pipeline was constructed by Texas Eastern at a cost of approximately \$44,000,000. With the addition of this new line to Texas Eastern's system, daily authorized delivery will be increased approximately 1,634,030,000 cubic feet per day

Files Bond Financing Proposal-

This corporation on Aug. 22 filed a registration statement with the SEC covering \$30,000,000 of first mortgage pipe line bonds, due 1977, to be offered for public sale through an underwriting group headed by Dillon, Read & Co., Inc. The interest rate, public offering price and underwriting terms are to be supplied by amendment.

and underwriting terms are to be supplied by amendment.

Net proceeds of the sale of the bonds will be used in connection with the company's gas expansion programs and reconversion program. According to the prospectus, Texas Eastern and its subsidiary, Texas Eastern Penn-Jersey Transmission Corporation, are currently constructing facilities under a gas expansion program to increase the cystem capacity by 250 million cubic feet of gas per day. Those facilities which are not yet completed, consisting principally of a 30-inch pipeline from Beaumont, Texas, to the Rio Grande River near McAllen, Texas, which is currently being tested, will be in full operation for the winter heating season. The cost of this program, including the cost of certain completed facilities now in operation, is currently estimated to be approximately \$147,000,000, of which Penn-Jersey's portion is approximately \$8,000,000. The company is also currently reconverting to service as a common carrier of petroleum products the portion of the Little Big Inch line between Beaumont and a point on the Ohio River near Moundsville, W. Va., and is constructing pumping, lateral and terminal facilities. Included in the program is the construction of a 14-inch lateral from Seymour, Ind., through Indianapolis to the Chicago area. The operation of such petroleum facilities will be subject to regulation by the Interstate Commerce Commission. The total cost of the reconversion program is currently estimated at \$96,000,000.—V. 186, p. 885.

Transcontinental Gas Pipe Line Corp.—Files Application With FPC to Add New Purchases to Reserves-

This corporation on Aug. 27 filed an application with the Federal Power Commission for a certificate to add to its reserves new purchases of natural gas recently contracted for in seven Louisiana fields near New Orleans.

E. Clyde McGraw, President, said that the new supplies of natural gas will be added to the company's system as soon as a certificate is received and then construction completed on the proposed facilities. This corporation is the main source of supply for New York City, as well as for New Jersey, the Philadelphia metropolitan area and southern states along the Eastern Seaboard.

The new contracts provide for a minimum purchase of 68,000,000 cubic feet of gas daily during the first year. However, capacity of the supply system to be constructed will be 222,000,000 cubic feet daily. Substantial undeveloped reserves exist in the area and anticipated additional replacements of patterns are substantial undeveloped. additional volumes of natural gas dictate the extra line capacity. The supply system which Transco proposes to construct will cost slightly more than \$14,000,000.

Mr. McGraw said that 65 miles of 24-inch lateral will extend almost due south to the Mississippi River from a point of connection with Transco's main line in St. Helena Parish on the Louislana-Mississippi state border. The 24-inch-diameter line will span St. Helena, Livingston, Ascension and St. James Parishes. A multiple crossing will be built under the Mississippi River near the town of Convent.

South of the Mississippi River, 22 miles of additional 24-inch lateral is planned. Smaller laterals, 10 inches and six inches in diameter, will extend into the seven fields. Construction is planned to start in

Gas fields containing reserves under contract to Transco in the Parishes of Lafourche and St. Charles are North Thibodaux, Thibodaux, Raceland, Bayou Des Allemands, Lucy, Lac Des Allemands and Hahnville. A total of nine purchase meter stations will be built by Transco at these fields.—V. 186, p. 570.

Transocean Air Lines, Inc.—Receives Navy Contract—

This corporation has received and inaugurated service on a U. S. Navy domestic cargo contract involving more than 2,000,000 miles of flying, it was announced on Aug. 15.

Won in bid competition with other major airlines, the contract is for the U.S. Navy's "Operation Quicktrans" which calls for daily scheduled flights in each direction, five days a week ever a 7,500 mile circuit linking Naval centers from coast to coast. The terminals of the operation are Alameda and Boston, with steps scheduled at Providence, Philadelphia, Washington, Norfolk, Charleston, South Caroline, Jacksonville, Florida, Midland, Texas and San Diego.

Effective for the fiscal year started July 1, the contract has a monetary value of in excess of \$2,500,000.

The corporation has assigned a fleet of Douglas Cargomasters to the operation and they are expected to log more than 20,000,000 ton miles during the year.—V. 186, p. 570.

U B S Chemical Corp., Cambridge, Mass.—Files Common Stock Issue-

This corporation on Aug. 23 filed a registration statement with the SEC covering 59,400 shares of its \$1 par common stock. Of this stock, 34,000 shares are to be issued and sold by the company and 25,400 by certain selling stockholders. G. H. Walker & Co. is listed as the underwriter; and the public offering price and underwriting terms are to be supplied by amendment.

are to be supplied by amendment.

Net proceeds to the company from its sale of 34,000 shares will be added to its cash resources and will be used to the extent needed for capital expenditures, as working capital, and to retire the outstanding 565 prior preferred shares at the redemption price of \$103 per share plus accumulated dividends. The balance, if any, will be added to the general funds of the company. The principal capital expenditures now contemplated are the purchase of equipment at the Cambridge plant for the manufacture of polymers for which funds are presently available. The company is considering the acquisition or construction and equipment of one or two manufacturing plants elsewhere for which some of the proceeds from the sale of shares hereby offered by the company may be used.

The names of the selling stockholders, and the number of shares being sold, are as follows: Bost and Co., 4,542 shares; Frederick B Day, 9,200 shares; Roland D. Farle, 10,000 shares; Gerrish & Co., 858 shares; and Ruth L. Renshaw and Lincoln L. Renshaw, 800 shares.

Union Carbide Corp.—New Petrochemicals Unit-

Plans to erect a plant at Fawley, England, for the manufacture of Plans to erect a plant at Fawley, England, for the manufacture of ethylene oxide derivatives were announced on Aug. 20 by Morse G. Dial, President. The plant's output will contribute to the expanding activities of Union Carbide Ltd., a British affiliate. Fawley is located on the southwest shore of Southampton Water, seven miles southeast of

Esso Petroleum Co., Ltd., which currently operates a refinery nearby, is to supply the new plant with ethylene. This, in turn, will be converted into a number of ethylene oxide derivatives. Operations are scheduled to begin in 1959, with production capacity of 45 million pounds annually. Manufacturing facilities will include installations for the production of ethylene oxide; ethylene glycols; polyethylene ethers;

ethanolamines; glycol ethers, and specialized products including polyglycol ethers, polyglycol esters, and other surface-active agents. Provision has been made for the storage of large quantities of finished products, and extensive transportation facilities are planned to speed incoming and outgoing shipments.

Plans call for a total site area of 58 acres. The initial facilities will cover 25 acres, thus leaving room for substantial future expansion. The most modern specialized chemicals processing equipment permitting a high degree of automation is a feature of the installation. Engineering studies have been completed and plant design is now in final stages, thus permitting an early start on construction. When completed, the unit will employ over 150 people.

The Fawley plant is the second major petrochemicals facility in the United Kingdom under construction by the Union Carbide organization. The first, a 24-million-pound-per-day polyethylene plant at Grange mouth, Scotland, is scheduled for completion in October of this year.

Starts Operation of Van De Graaff Accelerator at Sterling Forest Nuclear Laboratory-

Scientists at Union Carbide's laboratory in Sterling Forest, N. Y., have begun investigating the properties of various materials bombarded by high-energy particles from a million-volt Van de Graaff accelerator installed there last week. The accelerator, fabricated by High Voltage Engineering Corp. of Burlington, Mass., will also serve as an aid for training new personnel in various radiation chemistry techniques and in health physics.

Union Carbide Nuclear Co. and Union Carbide Ore Co. are the two Divisions of Union Carbide Corp. that will undertake this research work at the laboratory. Both Divisions will conduct extensive experiments in geophysics and geochemistry using the accelerator as a primary research tool. Various models of the latest analytical equipment such as an emission spectrograph and an X-ray fluorescent spectrograph have been installed, which will materially assist scientists in their research investigations.—V. 186, p. 776.

Work progresses satisfactorily on the construction of the 25,000-kw power plant by the City of Escanaba which will be operated by the company. Beginning early in 1958, this plant will serve the City of Escanaba and will supplement the generating resources of the company. The addition of this plant to the system will tend to reduce the cost of electric energy.—V. 185, p. 2263.

Utah Power & Light Co.—Files Financing Proposal—

This company on Aug. 22 filed a registration statement with the SEC proposing the public offering, at competitive bidding, of \$15,000,000 of first mortgage bonds, due 1987, and 400,000 shares of common stock, \$12.80 par.

Net proceeds of the sale of these securities will initially become part of the company's general funds and as such may be applied to any of its corporate purposes, which include capital expenditures for construction. As presently planned, the construction program of Utah Power and its subsidiary, The Western Colorado Power Co., for the years 1957-59, inclusive, will require approximately \$46,000,000, divided approximately \$21,800,000 in 1957, \$12,200,000 in 1958, and \$12,000,000 in 1959.

in 1959.

Utah Power has borrowed \$21,000,000 from 17 lending banks to carry forward its construction program. A part of the proceeds of the sale of the bonds and common stock will be available for and will be used to pay such notes. The remainder of the proceeds, together with other available cash, will be used to carry forward the construction program.—V. 186, p. 777.

Walt Disney Productions-Stock Offered-A nation-Wide group of underwriters headed by Goldman, Sachs & Co., Lehman Brothers and Kidder, Peabody & Co. on Aug. 28 offered 400,000 shares of common stock (par \$2.50) at a price of \$21.75 per share.

Floyd B. Odlum, President of Atlas Corp., and a director of Walt Disney Productions, has indicated that Atlas presently intends to remain the largest stockholder of the company next to the Disney family, through the exercise of warrants to purchasee 153,553 additional shares of common stock prior to Oct. 31, 1957.

PROCEEDS—The 400,000 shares are being sold for the account of Atlas Corp. and do not represent company financing.

BUSINESS—Walt Disney Productions, pioneers in the development of the animated cartoon, produces and distributes motion pictures for world-wide exhibition in theatres and for television exhibition, exploits and markets characters and music arising from its motion pictures, and owns a 65½% interest in Disneyland, an exhibition and amusement park located near Los Angeles, Calif. The company is currently producing three or four feature length action or nature films annually and one feature length animated cartoon every three or four years. Many of the 497 theatrical motion pictures in the company's library

have fresh interest to each succeeding generation and continue to have a substantial value. The company plans to reissue Snow White and the Seven Dwarfs for the third time in early 1958.

At June 30, 1957 accrued interest amounted to \$352,096 on the 5% unsecured notes, \$95,432 on the 5% advances, and \$53,595 on the 5% secured demand notes. Of the then outstanding principal amounts and accrued interest on these notes and advances, the company was owed \$2,358,800 principal and \$232,959 accrued interest on the 5% unsecured notes; \$838,600 principal and \$69,505 accrued interest on the 5% advances; and \$491,400 principal and \$39,372 accrued interest on the 5% secured demand notes.

TPayable until November, 1960, only to the extent of the net income before depreciation and income taxes of one of the rides at Disneyland Park. Any unpaid portion of these advances and accrued interest at Nov. 1, 1960 is to be converted to 5% notes maturing April 16, 1962.

**9,500 shares (65.52%) are owned by the company and the balance by American Broadcasting-Paramount Theatres, Inc.

The company expects to apply any proceeds which it may receive from the exercise of its outstanding purchase warrants toward payment of its 5½% secured demand note, and to the extent such note is not paid before Dec. 31, 1957, to negotiate a new bank loan agreement and note with the same lenders as has been done periodically. The company does not know how many purchase warrants will be exercised prior to their expiration on Oct. 31, 1957, but if all of the 185,889 purchase warrants outstanding on Aug. 1, 1957 are exercised, the company will receive the gross proceeds thereof amounting to \$4,089,558.

DIVIDENDS—On April 1, 1957 and July 1, 1957 the company paid cash dividends of 10 cents per share. The directors have declared a further cash dividend of 10 cents per share payable on Oct. 1, 1957 to stockholders of record on Sept. 13, 1957 and a 3% stock dividend payable on Nov. 25, 1957 to stockholders of record on Nov. 1, 1957; purchasers of the stock above offered who are stockholders of record on such record dates will receive these dividends.

Washington General Insurance Corp., New York, N. Y. -Files With Securities and Exchange Commission-

The corporation on Aug. 16 filed a letter of notification with the SEC covering 4,500 shares of common stock (par \$5) to be offered at \$10 per share, without underwriting. The proceeds are to be used for working capital.

(J.) Weingarten, Inc.—Debentures Offered—Mention was made in our issue of Aug. 12 of the offering to bona fide residents of Texas of \$5,000,000 of 6% subordinate income debentures due June 15, 1987 at 100% and accrued interest through a group of underwriters headed by Moroney, Beissner & Co. This was subject to a preferential offering of about \$2,500,000 of said debentures in exchange, pay for pay for the outstanding professor. in exchange, par for par, for the outstanding preferred stock; this offer expired on Aug. 6. Further details fol-

The company intends to redeem all preferred stock not exchanged for debentures, at the fixed redemption price of \$51.50 per share, provided at least 40,651 shares of preferred stock were exchanged for debentures; and provided further that unless \$428,100 or more in principal amount of debentures is sold, the preferred stock held by the Weingarten Employees' Profit Sharing and Retirement Plan may

not be so redeemed.

The debentures may be redeemed on or before June 15, 1967 at 105%; and thereafter, but before maturity, at 103%; plus accrued interest in each case. They may also be redeemed through a sinking fund at 101% and accrued interest.

PROCEEDS—Assuming the sale or exchange of the entire \$5,000,000 principal amount o. the debentures being offered and the redemption of all preferred stock (at \$51.50 per share) not surrendered for exchange, it is estimated that the net cash proceeds of the offerings of the debentures after the redemption of all preferred stock will range from \$1,685,000 to \$1,805,000, depending on the number of shares of preferred stock exchanged and other factors. Such proceeds will be added to the company's general funds to be used principally to purchase sites for new stores, to carry the cost of new stores during construction, to purchase fixtures and equipment for new stores, to carry the increased inventories which are expected to result from the company's current expansion program and to replenish working capital expended for the purchase of the common stock of Food Center of Tennessee, Inc.

Shoppers in the 36 Weingarten Texas supermarkets purchased \$712,150 worth of 6% subordinate income debentures during the first nine days of the "across the counter" sale, Robert E. Moroney reported

on Aug. 20 following final tabulations.

It was the first time in financial history that investment bankers sold debenture bonds in grocery stores. Mr. Moroney, President of Moroney, Beissner & Co., managing underwriter for the syndicate of 21 Texas banking firms participating, said the remainder of the \$5,000,000 debenture issue against the mammoth food store chain is expected to be sold in a week. More than \$4,500,000 has already been sold or exchanged.

Mr. Moroney emphasized that debentures were sold only by prospectus to bona fide residents of Texas.

The 36 stores are continuing the sale of debentures.

Much of the revenue from the debentures will be used to expand the Weingarten operation. The addition of six or seven supermarkets to the 44-store chain (eight of the stores are outside Texas) is expected by the end of 1958. See also V. 186, p. 670.

Wisconsin Public Service Corp.—Registers With SEC

This corporation filed a registration statement with the SEC on Aug. 27 covering a proposed offering to stockholders of rights to subscribe for 253,494 shares of common stock (par \$10) on the basis of one new share for each 10 shares held of record Sept. 20, 1957. The offer, which is to expire Oct. 8, 1957, will be underwritten by a group headed by The First Boston Corp.; Merrill Lynch, Pierce, Fenner & Beane; Robert W. Baird & Co., Inc. and William Blair & Co.

The company plans to use the net proceeds from the sale of the new common stock to pay for current construction or to pay a portion of its outstanding short-term bank loans incurred for construction purposes of which about \$8,000,000 will be outstanding at the termination of the common stock offer. tion of the common stock offer.

Subject to market conditions, the company also expects to sell approximately \$7,000,000 of first mortgage conds late in 1957 to pay its bank loans and to provide meney, in addition to funds from depreciation provisions and retained earnings, for the remainder of the 1957 construction program. Expenditures for construction are expected to total \$12,000,000 in 1957 and \$19,500,000 in 1958.

The corporation is engaged principally in the production, transmission, distribution and sale of electricity and in the purchase, distribution and sale of gas in a territory of approximately 10,000 square miles in north central and northeastern Wisconsin and an adjacent part of Upper Michigan with a population of about 545,500. Retail electric service is furnished to 278 communities, retail gas service to 19 communities, and wholesale electric service to nine communities.

For the 12 months ended July 31, 1957, total revenues of the company amounted to \$31,406,000 and net ncome to \$5,494,000 compared with total revenues of \$30,273,000 and net income of \$5,325,000 for the year 1956.—V. 185, p. 2854.
